COMMENTS FROM THE TOWN MANAGER'S OFFICE

The tax lien process will start very shortly. Anyone who has not paid their 1966 taxes should attempt to do so at once. The ten day notice costs the taxpayer \$1.00 for each parcel of real estate. If taxes are not paid within the 10 days there is an additional cost of \$3.00 plus the cost of registered mail. The courtesy notices that were sent were met with good response but there are still several delinquent taxpayers who will have to pay the 6% interest plus the costs of liens unless they pay soon. Many times a taxpayer lets a lien be placed against his property without realizing how much it is costing him. On smaller parcels this can increase the amount he owes a large percentage. The lien costs are the same for a \$20.00 tax as for a \$2,000.00 tax if it is all in one lot.

An engineer from the Jordan Co. was in town Wednesday to begin the sewer survey. It will take some time to complete the study. The findings of this work will be used in conjunction with plans to control pollution of the Androscoggin River.

RUMFORD HOSPITAL WINS 1967 HEALTH ACHIEVEMENT AWARD

Rumford Community Hospital was awarded the seventh annual Health Achievement Award of the Maine Health Council at their annual meeting held at the Holiday Inn, Augusta, on Tuesday, May 9. This was given in recognition of the hospital's Home Health Agency.

The Maine Health Council presents this award annually for an outstanding contribution to the betterment of citizen and community health made by a group, honoring those who have worked in the interest and pursuit of better health for their neighbors, community and State.

In making this award the Maine Health Council recognizes Rumford Community Hospital's leadership in providing a Home Health Agency to the Rumford area. A Home Health Agency represents a significant achievement in progressive patient care; and health authorities throughout the country have recognized the need for home health care as a means for supplying total patient care to the community. It is a necessity for proficient utilization of health resources.

The Rumford Community Hospital has demonstrated community leadership in the health care field in making this service hospital-based. It is the only hospital in Maine providing home health care to citizens of all ages and all categories. The hospital has recognized its responsibility to render total patient care at the least cost, and it has been one of the few hospitals in the country to fulfill this "total care" requirement under Medicare. The hospital recognizes that its goals should be directed toward maximum rehabilitation and prevention of illness.

Rumford Community Hospital has plans to move forward across new horizons in the future with the broadening of this Home Health Agency on a regional basis, and offering this outstanding community service on an even wider scale.

Mrs. Vivian Violette and Mrs. Sally Bourget of Manchester, Conn.; Mr. and Mrs. Norman Monzie, Mrs. Albert Costa, Mrs. Garold Kingsbury, Mrs. Edward Tibbets and Jerry Freeman of Massachusetts were in town to attend the funeral services of Mrs. Glycerie B. Emery on Friday.

MEETING AT PARIS TO DISCUSS EDUCATION LEGISLATION, SATURDAY

A meeting of Oxford County municipal officers, school board members, teachers, legislators and all citizens interested in education will be held at the Oxford Hills Junior High School on Pine Street, South Paris, Saturday at 9:30 a. m.

The purpose is to discuss needed school legislation and to hear the arguments in favor of L. D. 636, a bill to increase the per pupil base on which the state pays subsidy from \$255 to \$320. The passage of this legislation would be an extra \$10 million in state school subsidy in 1968-69.

Dexter Stowell, chairman of the Board of Directors of School Administrative District 44, will act as chairman for the meeting. Edward McMonagle, superintendent of schools of Rumford, will describe L. D. 636 and explain the needs for increasing school subsidies. Leon Strout, Mexico, president of the Maine Teachers Association, will discuss an adequate tax program.

The effect the subsidy bill will have on projected school programs will be discussed by Glenn Chute, South Paris, a director of School Administrative District 17. Norway Town Manager Donald McAllister will speak on the impact on the local tax rate if L. D. 636 fails passage. Individual legislators from Oxford County will also discuss the proposed legislation and participate in a question and answer period.

Edmund Smith, West Bethel; Alfred Barton, Fryeburg; Richard Lonsau, Hanover; Percy Upton, North Waterford; Leslie Hall, Oxford; W. B. Harriman, Norway; James Billings, Bryant Pond; and Richard Felt, Woodstock.

Technical Assistance in survey, design and supervision of construction will be provided by Technicians of the Soil Conservation Service.

During this three month period some 322 complaints were answered by the environmental division under the supervision of the chief inspector and being carefully checked at times by the division chief. It is estimated that the division chief, Mr. W. Hamilton, and the major inspector, George Edward B. SENIOR CITIZENS CELEBRATE FIFTH ANNIVERSARY

Seventy members and friends of Bethel Senior Citizens met at Garland Chapel on Tuesday.

The hostesses were young women from the Methodist Church. In May, 1962, the group enjoyed a dinner and the hospitality of the same church and there was born the organization. Among those in attendance on Tuesday and who also attended the first meeting in 1962 were: Eva Bean, Imogene Kimball, Katherine Bennett, Gladys Cross, Maggie Lowell, Pearl Ashby Tibbets, Ida Packard, Marjorie Billings, Virginia Walker, Edna Smith, Joseph Perry of West Bethel, Ruby Briggs, Minnie Wilson, Edna Newton, Alice Taylor, Rose Bartlett, Stella Moore, Sylvia Conroy.

The luncheon consisted of assorted sandwiches, salads, gingerbread with whipped cream and fragrant coffee. Decorations were spring flowers and purple willow.

Original watercolors by Frank Plummer of South Paris were on display in the Chapel and Church Parlor.

The birthday cake was made by Jennie Judkins of Upton. Honored for May birthdays were Hazel Tardward, Mildred Lowell, Ma Wright, Mary Hall, and Florence Burdick who were seated at the head table with president Florence Band, secretary Minnie Wilson, guests Roy and Mrs. Clifford Laws, Phillis House, and Estelle Borden and Jackie Pinard, staff members from Poland Spring Job Corps.

Welcome guests were Lucia York, R. Bennett, and Ethel Little of Norway, Grace McCrene and Villa Sessions of Mexico, Mrs. Martha Lane of Presburg, Letta Brown of Augusta, and Frank Plummer of South Paris.

The program was a delightful and heart-warming hour of singing old time songs.

Lucille Foveaux sang two songs and Mr. Plummer sang two Irish ballads. He played the harmonica and rattled the bones. Philip House played the organ. In and with Mrs. Little at the piano they danced with a half hour medley of old time favorites. Hands were clapping and toes were tapping.

A quartet made by Lucille Foveaux, Astora Walton, Madge Vest and Nedra Littlefield delighted the audience. Mrs. Vest did a solo cello number that brought loud applause.

Good refreshments, good music and warm hospitality closed the hour meeting on a fine social and enjoyable scene of Bethel Senior Citizens.

JACKSON-SILVER UNIT ANNOUNCES POPPY DAY AND POSTER PLANS

The Jackson-Silver American Legion Auxiliary Unit No. 68 of Locke Mills announces that they will sponsor a Poppy Poster Contest which will include students in the 4th to the 8th grades inclusively attending school in the towns of Greenwood (Locke Mills) and Woodstock (Bryant Pond). Mrs. Cathy Bickford Poppy Chairman for 1967, states the contest will run from May 9th to May 16th. Judges for the contest will include three members of the Jackson-Silver Unit. The winning posters will be placed on display in a local store the week prior to Memorial Day. The winning artists will receive prize awards during the Memorial Day ceremonies at Locke Mills and Bryant Pond. In addition the winning posters will compete in the State Poster Contest with the opportunity to enter in the National Contest.

Reigning as "Miss Poppy" for 1967 is Brenda Miele of Bryant Pond. The selection of "Miss Poppy" which is done by the senior members of the American Legion Auxiliary is made from the Junior membership list of Auxiliary. Miss Poppy will serve as Honorary Marshal for the Memorial Day Parades in Locke Mills and Bryant Pond.

There will be two "Poppy Days" scheduled for the distribution of poppies this year, Wednesday, May 24th, and Saturday, May 27th. 4-H Club members in Bryant Pond under the leadership of Alice Hoyt will canvass the town of Bryant Pond, while 4-H Club members in Locke Mills will canvass the village of Locke Mills.

The Junior members of the Jackson-Silver Unit will be in charge of canvassing the outlying areas of both towns. Citizens should be proud to wear a Poppy. The Poppy is not only a symbol of remembrance for all those who served our nation but is also a means to aid the veteran who makes the "Poppies". Contributions made by the public on the annual Poppy Day have aided as many as 12,000 disabled war veterans who were able to augment their incomes by producing the small red blossoms. Disabled veterans are compensated for their work by the American Legion Auxiliary which sponsors the annual Poppy Day. Contributions are also devoted to child welfare work for the disabled.

COLLEGE FINANCIAL AID AVAILABLE UNDER FOUR FEDERAL PROGRAMS

High school juniors and seniors are reminded that they may be able to obtain financial help to go to college under one or several of four Federally-supported programs.

The importance of early action by students who wish to continue their education after high school but who find their own resources inadequate to pay the costs was emphasized by Walter W. Mode, Regional Director of the U. S. Department of Health, Education and Welfare, and Dr. Walker F. Agnew, Regional Assistant Commissioner of HEW's Office of Education.

Dr. Eino A. Johnson, Director of Higher Education for Region I of the U. S. Department of Health, Education and Welfare, urged seniors who have already been accepted at a college for the fall of 1967, and who need financial or other assistance to attend, to get in touch immediately with the financial aid office at the college and apply for a job, loan, grant or other assistance for which they may be eligible. Region I is comprised of the States of Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont.

"Frequently," Dr. Johnson said, "We get last minute requests for information on financial aid from students who are not aware of the fact that the college which has accepted them may have Federally-supported and other programs of assistance which could help see them through. Application for financial aid should be made as soon as possible directly to the college financial aid office, since three of the four major programs are administered directly by the colleges."

The four major Federal programs of financial aid to students, available to eligible students in any field of study, are: The National Defense Student Loan Program, the College Work-Study Program, the Educational Opportunity Grants Program, and the Guaranteed Loan Program.

During the 1967-68 academic year it is expected that these four programs together will enable about 1,175,000 undergraduate students throughout the Nation to attend institutions of higher education, at a total financial aid level of over \$1.1 billion. National Defense Student Loan Program.

Most colleges and universities in the United States take part in the National Defense Student Loan program, the oldest major program of student assistance which is Federally-supported, Johnson said.

Under this program students borrow directly from their colleges. Repayment and interest do not begin until after the student has ended his studies, and may be extended over a 10-year period. An undergraduate student may borrow up to \$1,000 each academic year to a total of \$5,000. A graduate student may borrow as much as \$2,500 per year to a maximum of \$10,000, including what he may have borrowed as an undergraduate. There are special cancellation provisions for student borrowers who become teachers.

Since the beginning of the program, authorized by 1955 legislation, more than 1 million students have borrowed over \$1 billion.

For the academic year beginning this fall, an estimated 244,000 students in Maine, in attendance at 17 institutions of higher education, will borrow an estimated \$762,900.

College Work-Study Program

The College Work-Study Program provides jobs for students who need employment to help pay for college expenses. Generally, students work up to 15 hours a week while attending classes full-time, and may work 40 hours a week during summer or vacation periods. Students may work for their college in dining halls, laboratories, libraries and in maintenance work. Or they may work off-campus in public or nonprofit organizations, such as those in health, education, welfare or recreation.

During the present school year

SEVENTH-DAY ADVENTISTS TO REMEMBER MOTHERS AT SATURDAY SERVICE

Mother's Day will be remembered one day in advance in the South Woodstock Seventh-Day Adventist Church with special honor to Mothers in their Sabbath school exercises at 10 o'clock.

In these days of crime and lawlessness, especially with juveniles, the work of a Christian mother is needed more than ever.

Many of the world's great leaders, such as: Abraham Lincoln, David Livingstone and Martin Luther acknowledged that they had achieved their success from principles learned from their mothers.

At the 11:30 Church service on Saturday morning, Pastor David I. Shaw, will speak on the subject, "Mothers and the Bible."

There will also be special music.

It is estimated that more than 184,000 undergraduate students are employed in this program, earning an average total salary of about \$700 a year. During the present school year an estimated 888 students attending 16 colleges in Maine were employed in College Work-Study programs, at an approximate Federal cost of \$620,800.

Educational Opportunity Grants
 "Educational Opportunity Grants," Johnson said, "is a new program that began operation in the fall of 1966. It is intended for undergraduate students in such extreme financial need that without the grants they could not attend college."

In its first year of operation, \$58 million in Federal grants enabled 134,000 students to attend college. These students, so long as they remain in good standing, are eligible to apply for grants for each year of undergraduate study. The grants range from \$200 to \$800 a year.

During this school year 510 students are attending college in Maine with the help of Educational Opportunity Grants.

Guaranteed Loan Program

The Guaranteed Loan Program, which began operation in the summer of 1966, provides a means for students to borrow directly from their bank, credit union, savings and loan association or other eligible lender. While any student may borrow, the program is intended primarily to ease the heavy burden of educational costs for middle-income families. For students whose adjusted family income is less than \$15,000 a year the Federal government pays the entire interest (6 percent) during the school years, and half the interest

A MOTHER'S PRAYER

Father in heaven, make me wise,
 So that my gaze may never meet
 A question in my children's eyes:
 God keep me always kind and sweet.
 And patient, too, before their need;
 Let each vexation know its place,
 Let gentleness be all my creed.
 Let laughter live upon my face!
 A mother's day is very long,
 There are so many things to do!
 But never let me lose my tongue
 Before the hardest day is through.

"In spite of the 'tight' money market which existed as the program got underway, and still exists," Johnson said, "between July 1, 1966 and February 28, 1967, throughout the Nation more than 200,000 students borrowed a total of more than \$208 million in loans. During this time, 1,087 students in Maine borrowed \$932,664 for their college expenses."

In Maine the Guaranteed Loan Program is administered by the Maine Higher Education Assistance Foundation, 15 Western Avenue, Augusta, Maine 04330.

"Some years back a college education was something of a status symbol reserved for the child of affluent parents, or the child marked by outstanding scholastic ability or athletic skills," Johnson said. "Fortunately for our young people and for our country's future this situation has changed," he said.

Dr. Johnson urged citizens throughout Maine to keep an eye out for talented young people who might not know of opportunities awaiting them for higher education, and to encourage them to finish high school and go to college.

The Gruesome Cry of Winter Spring

By David Belskis
 'Tis the day of April twenty-four, springtime, I said,

When the next morning I woke up with dread,
 And the awful look of a snow storm spread—
 Of white snow lying on its soft bed.

"Ho, horrors!" I spoke as in minutes I awoke,
 There soon followed, the snow as it broke
 Glistening and tingling in its fall
 Upon the bushes, oak trees and wall.

Piercing in its nature dear,
 I often wonder of the snear,
 That lights from the clouds above
 And brings this abundant love

Buy Bonds where you work.

It's miserable work, crawling through a rice paddy. And being shot at. This American does the job for freedom's sake. So do thousands of his buddies. Many of these brave men also support freedom with their dollars. A majority of our servicemen overseas are investing in U.S. Savings Bonds. Would you

like to show this man you're with him? One good way is to buy Savings Bonds where you bank or join the Payroll Savings Plan where you work. You'll make a good investment. And you'll work a lot taller.

U.S. Savings Bonds

And facts: Savings Bonds pay you back \$4 for every \$3 at maturity in 30 years... are replaced free if lost, destroyed or stolen... have special advantages... can be redeemed whenever the need arises.

The U.S. Government does not pay for this advertisement. Service is cooperative with the Treasury Department.

Casco's Spruce-Up-for-Summer-Loan is the best thing to hit Maine since Spring.

"If I see another snowflake this year," moaned a lady we know, "I'll scream. I'll simply sit down in the middle of the street and scream."

Fortunately, Spring has finally made it.

Which gets us to the matter at hand. Now that Spring's here, it's time to get ready for Summer—with a low-cost Spruce-Up-for-Summer-Loan from Casco Bank.

First, how's the house? Did the Big Snows raise hob with it? Maybe it's time you spruced up the old homestead anyway.

How about the dock? Still there? C. did the ice take half of it away this year? A Casco Bank Spruce-Up Loan can help put it back together again, quickly and easily.

And what about the boat? You're certainly not going to put up with those mildewed sails

or that asthmatic old motor another season, are you?

Whatever your reasons for wanting (needing?) to spruce up a little (or a lot), a trip to any of the fine people whose services and products are listed on the opposite page—and a Casco Bank Spruce-Up-for-Summer-Loan—can do the trick.

So come on in. You can ask us for anything at Casco. (Except snow.)
